

There is no second chance..

..for the first impression

Successful Software Web

Web sites | Custom web development | Advanced portal development | Content Management Systems

successful
www.successful-soft.com

What does your company's web site tell about your business?

Before Successful Web

Dark, unpleasant colors

Poor page navigation system

Content that is not visible in one screen (scroll is necessary)

Your company's web site is your public image visible to thousands of potential Customers

Is your public image the best possible?
Does the functionality of your web site drive your potential customers away?
Do you have the exposure and placement you want to internet search engines?

Successful Software **Web (Successful Web)** is the department of Successful Software that specializes in web development and more specifically to:

- Professional websites combining appealing design and rich functionality.
- Custom web applications built according to client specific requirements using the full potential of the latest technologies
- Advanced portal development, complex web databases, intranets/extranets, web-enabling legacy applications
- Scalable business solutions from enterprise content management to complex business processes automation

After Successful Web

Bright, attractive colors that surprise the eye pleasantly

Double navigation system for faster page viewing (visitors are able to find faster what they are looking for)

Content visible in one screen with graphical aids for easy recognition

Successful Web provides professional website design, development and maintenance services. Our skilled web designers and developers accomplish various website projects from brochure sites to multi-functional web portals. We provide complete front-end and back-end development based on the latest technologies and industry trends.
