

Marina of Agios Nikolaos in Crete (www.marinaofagiosnikolaos.gr) chose the Successful Marina

The board of directors of Marina of Agios Nikolaos in Crete, decided today to buy and install the advanced marina management system of Successful Software called "Successful Marina". Later on, the Successful Software Company announced that the application will be up and running in about ten days, when the fine-tuning and training period will be over. With this installation the Successful Marina will manage a total of 500 mooring places in Greece.
